

WHAT IS ADVANCED PLACEMENT?

- Advanced Placement provides high school students with access to college-level curricula and examinations. Students earning a three or higher (five-point scale) on the AP examination have the potential of earning college credit and placement. Colleges and universities in the University of North Carolina System award credit to students who earn a three or higher on Advanced Placement exams.

Students enrolled in AP Courses:

- Get familiar with college-level work
- Enter college more confident in their ability to succeed at collegiate level work
- Develop college skills such as time management, critical thinking, and scholarly writing

Benefits of AP

Students should consider taking AP courses to enhance their critical thinking skills, challenge themselves academically, build their skill sets in anticipation of the rigor of additional coursework after high school, and potentially earn college credit before enrolling in postsecondary education.
