system-related websites must include a link to this policy and to policy 3230/7370, Technology Responsible Use.

b. External Links

The superintendent and designee have editorial control over and responsibility for the linking of a system-related website to other sites on the Internet that are appropriate to the mission of the school system. Links to external sites (including externally hosted teacher classroom sites) must be approved by the principal. If required, web managers must obtain permission from external websites before links are established from any system-related website to external websites. To the extent possible, school personnel shall determine the extent to which a secondary site is linked to other sites on the Internet and whether such sites are appropriate for access through the school system websites. Web managers shall periodically check external links for accuracy and appropriateness of content. School employees must report any inappropriate links to the web manager.

Since the school system cannot control the content of other sites on the Internet and their linkages, the following disclaimer statement must be inserted in a prominent position on the official system website, on each school's web page and on other system-related websites that contain links to other websites or web pages that are not system-related websites:
