Users should not assume that files or communications created, transmitted, or displayed using school system technological resources or stored on servers, the storage mediums of individual devices, or on school managed cloud services will be private. Under certain circumstances, school officials may be required to disclose such electronic information to law enforcement or other third parties, for example, as a response to a document production request in a lawsuit against the board, in response to a public records request, or as evidence of illegal activity in a criminal investigation.

The school system may, without notice, (1) monitor, track, and/or log network access, communications, and use; (2) monitor and allocate fileserver space; and (3) access, review, copy, store, delete, or disclose the content of all user files, regardless of whether the user is a student, employee, visitor, or other user.
